Jaewon Kim

Undergraduate Student, Korea University

Personal Website | Google Scholar | LinkedIn | jwk0302@korea.ac.kr

RESEARCH INTEREST

- Deep Reinforcement Learning
- Generative Models
- Physics-Informed Machine Learning
- AI for Science

EDUCATION

Korea University **Mar 2022 – Expected Aug 2028**

B.S. Semiconductor Engineering *Seoul, Korea*

- **GPA**: 4.35/4.5 (3.93/4.0)
- Tuition and stipend fully covered by SK Hynix-KU Partnership Fellowship.
- Military leave of absence for 2 academic years (Mar 2025 – Dec 2026).

University of Texas at Austin **Jan 2027 – Jun 2027**

B.S. Mathematics *Austin, Texas*

- Selected for UT Austin Student Exchange Program.

RESEARCH EXPERIENCE

Complex Data Analytics Lab (CDAL) **Feb 2024 – Present**

Undergraduate Researcher (Advisor: Prof. Seok Junhee) *Seoul, Korea*

- **High-Dimensional Continuous Conditional Generation [P1]**
  - Led the theoretical formulation and algorithmic design of the Hutchinson-Yielded Prioritized Estimator (`HYPE-CCDM`), generalizing continuous conditional generation from scalar to multi-dimensional regression labels.
  - Mitigated high-dimensional distance concentration and data sparsity by reformulating the vicinal objective with random 1D projections and distance-aware prioritized sampling, achieving state-of-the-art performance.
- **Physics-Informed Policy Learning [J1]**
  - Proposed Fokker-Planck Soft Actor-Critic (`FP-SAC`), reinterpreting soft policy improvement as steering a policy toward the stationary solution of a Langevin SDE.
  - Mitigated mode collapse in reverse-KL updates by training normalizing-flow policies via Fokker-Planck PDE residual minimization, achieving highly expressive multi-modal policies.

PUBLICATIONS

(P: Preprint, J: Journal, C: Conference, W: Workshop & Demos, *: Equal contribution, †: Equal advising)

[P2] NanoDiff: Physics-Guided Diffusion for Image-Based Nanophotonic Device Design
Insoo Kim, Jaewon Kim, Jangwon Seo, Junhee Seok†, Bohyung Han†
Under Review

[P1] Scalable Continuous Conditional Diffusion via Random Projections and Prioritized Sampling
Jaewon Kim*, Hyo-Seok Hwang*, Junhee Seok
Under Review

[J1] Fokker-Planck Soft Actor-Critic
Hyo-Seok Hwang, Jaewon Kim, Junhee Seok
IEEE Transactions on Neural Networks and Learning Systems, 2026

HONORS & AWARDS

SK Hynix-KU Partnership Fellowship Feb 2022 – Present
- Awarded full tuition and stipend through the selective SK Hynix-KU Fellowship.

KU Alumni Scholarship, Korea University Feb 2022 – Present
- Merit-based scholarship awarded to high-achieving students by the KU Alumni Association.

Semester High Honors, Korea University Mar 2022 – Present
- Awarded for achieving top academic performance each semester.

Outstanding Poster Award, 12th SK Hynix Academic Conference 2024
- Recognized for excellence in research presentation among selected poster submissions.

Dean's List, Korea University 2022
- Granted for achieving a perfect GPA (4.5/4.5) in the 1st semester of 2022.

EXTRACURRICULAR ACTIVITIES

Young Engineers' Honor Society (YEHS) Mar 2024 – Present
- Honor Society sponsored by the National Academy of Engineering of Korea (NAEK).

BITAmin Aug 2023 – Aug 2024
- Intercollegiate offline study group focusing on ML/DL research and projects

Korea University International Student Assistant (KUISA) Feb 2023 – Feb 2024
- Voluntary student organization under Global Services Center, Korea University.

SKILLS & INTERESTS

Language Skills: Korean(Native), English(Fluent, iBT TOEFL 118)
Computer Skills: Python (Pytorch, Tensorflow), Matlab, C, C++
Interests: Music, Basketball, Badminton, Cooking, Traveling, Math

SELECTED COURSEWORKS

Statistics & Mathematics: Engineering Mathematics I, Engineering Mathematics II, Probability and Random Process, Introduction to Linear Algebra, Fundamentals of Data Science, Data Learning and Intelligence

Electrical and Computer Engineering: Introduction to Computers, Object-Oriented Programming, Microprocessor, Computer System, System Software, Signal and Systems, Digital Image Processing, Digital Signal Processing, Deep Signal Processing
